

GMT comes to Asia

Date : 30 April 2008
Editeur : Edipresse Group

Edipresse's Asian subsidiary Edipresse Asia together with the Group's multimedia luxury and watch making entity, Edipresse Luxe, are proud to announce the first Asian issues of GMT XXL magazine, which will be launched in June 2008 in Singapore, in July in Hong Kong and in August in Malaysia.

The beautifully photographed large-format magazine (420mm by 299mm) covers the best Swiss and European watches and watchmakers, combined with especially tailored insights and advice for watch collectors in Asia. According to Marco Cattaneo, Managing Director of Edipresse Luxe, GMT, which was founded in Switzerland and is also published in several key markets such as Russia, Ukraine, the United States and Spain, is successfully pursuing its fast paced internationalization strategy. Asia represents the natural expansion for this title and we are confident that the magazine will be well received by both advertisers and watch enthusiasts.

Barrie C. Goodridge, Edipresse Asia's Chief Executive Officer, is equally optimistic: "Since 1998, watch collectors have relied on Swiss-based GMT/ GMT XXL magazines for the latest developments and in-depth reports on the best Swiss and European watchmakers. The Asian editions of GMT XXL will feature the best of this reportage integrating it with articles and know-how from the Asia watch collecting scene to provide readers with the best from both worlds."

Key editorial sections of GMT XXL will include Watchmaker's Choice, New Releases, Testing Bench, Unique Creations, Technical Innovations, Strategy and Interviews. Detailed profiles on exceptional models from selected luxury brands will give the watch lovers plenty of eye candy. The magazine will also have a column on collecting timepieces authored by Bernard Cheong, one of Asia's most respected luxury watch making experts.

Mr Goodridge adds: "Switzerland is without doubt the major centre of luxury timepieces and watch making innovations. Asia, and particularly China and Hong Kong, is a driving force of demand.

GMT XXL highlights the intersection of these very vibrant worlds, thereby providing exceptional opportunities for advertisers to capture a premium audience who actively collect unique

timepieces. Plus the large format allows us to show the artistry and technology of these extraordinary timepieces.?

GMT XXL Hong Kong and *GMT XXL Singapore* will be published twice a year, *GMT XXL Malaysia* once. They will be available through the finest retailers, leading auction houses, selected five-star hotels and cultural venues in Hong Kong, Singapore, Southeast Asia and Macau, and by special subscription.
