

CIE, Centre d'Impression Edipresse SA

Every night, the centre carries out the printing, sorting, packaging and distributing of five daily papers- *24 Heures*, *Le Matin*, *Le Temps*, *Le Matin Bleu* and *La Tribune de Genève*. The Sunday edition of

Le Matin is 220'000 copies alone, and taking into account the numerous flyers, its weight sometimes exceeds 800 grams per copy.

During the day, two teams produce numerous other publications (for example, *TCS*, *M Magazine*, *Coopération*, etc.) and printed material for the Swiss and international markets. The print run is often between 400'000 and 500'000 copies and can sometimes exceed 2 million.

For the Edipresse Printing Center (CIE), the ISO 9001-2000 certification demonstrates a permanent desire to offer the best to its clients and partners. All pages can be printed double-sided using quadrichrome technology.
